

DISPOSABLE WORKWEAR

DISPOSABLE GARMENTS

**Electrostatic Performance (Anti-Static) prEN1149-5:2006**

Protective clothing with electrostatic properties. This standard covers two test methods. (EN1149-1 / EN1149-3) and the performance requirements (EN1149-5). It specifies material and design requirements for electrostatic dissipative protective clothing used as part of a total earthed system to avoid incendiary discharge of static electricity.

**EN14786:2006**

Tests for chemical sprayed under pressure. The leaf on the logo indicates that it is suitable for use with pesticides and herbicides.

**Chemical Protection – Reduced Spray****EN13034 Type 6**

EN13034:2005 Type 6 (PB) Partial body.

EN1513 Limited use protection for parts of the body.

**Chemical Protection – Dry Particle**

EN13982 Type 5 Protective clothing for use against solid particulates Type 5.

EN1513 Limited use protection for parts of the body

**Chemical Protection – Spray Tight**

EN1512:1993, EN465:1995 Type 4,

EN14605:2005 Type 4 (also Type 3)

EN 467:1995 Partial body protection only.

These standards provide performance requirements for clothing with spray tight connections and seams.

**Chemical Protection – Liquid Tight**

EN1511:1994, EN466:1995 Type 3,

EN14605:2005 Type 3 (also Type 4)

These standards provide performance requirements for clothing with liquid tight connections and seams.

**Chemical Protection – Non-Gas-Tight**
