

## SITE SAFETY

**THERE IS A HIGH RISK OF FATAL OR SERIOUS INJURIES TO WORKERS INVOLVED IN BUILDING WORK. GOOD MANAGEMENT OF A SITE INCLUDES THE PROVISION OF APPROPRIATE SAFETY SIGNS AND THE MAINTENANCE OF THE SITE WITH ADEQUATE TRAFFIC MANAGEMENT AND BARRIER SYSTEMS.**

### SAFETY SIGNS

Safety signs are an essential part and a very common feature of the modern workplace. To be able to guide yourself through the types of safety signs available, please consult the table attached. Safety signs are manufactured in 4 different types of materials, Self-Adhesive, Corriboard, Semi-Rigid PVC or Metal. Although signs can be manufactured in many different sizes, we have given a guide on the most common that we price. Lastly, signs are priced according to volume with 3 categories; 1, 2-5 & 5+; naturally the bigger volume per individual sign leads to a better price. The full price list on this basis is available on request.

Please note the following parameters in understanding your choice of sign;

1. Mandatory Safety Signs: Blue background colour with a White symbol and text.
2. Warning Safety Signs: Yellow background colour with a Black triangular band and Black symbol or text.
3. Safe Condition Safety Signs: Green background colour with a White text or symbol.
4. Fire Equipment Safety Signs: Red background colour with a White text or symbol.
5. Prohibition Safety Signs: White background colour with a Red Circular band and crossbar and a Black Symbol.
6. Hazard Warning Diamonds: Internationally recognised symbols required to be used when carrying or handling hazardous substances.
7. Road Traffic Signs: To be used where information must be relayed to the road user for a long period of time.

### WARNING SAFETY SIGNS

#### Material

Adhesive, Corriboard, Semi-Rigid PVC, Metal/Zyntec.

#### Size/mm

150x150, 200x200, 300x200, 300x300, 400x300, 400x400, 600x400, 600x600, 900x600, 900x900, 1200x900, 1200x1200, 1800x1200, 2400x1200

### SPILL MANAGEMENT

#### Spill Kits

Emergency response kits are used when there is a potential risk of a spill. The spill kits are self-contained and should be stored near to a potential spill source. Spill Kits are available in the following capacities; **15, 30, 50, 90, 250 and 500 litres.**

### 7 STEPS TO SPILL RESPONSE

1. **ASSESS** Determine the liquid spilt and assess the risk to people, the environment and to property.
2. **SELECT** Select the most appropriate Spill Kit and Personal Protection Equipment ensuring that all areas of the body are protected.
3. **CONFINE** Confine the spill to as small an area as possible.
4. **STOP** Stop the source of the spill if possible by uprighting containers, turning off taps or valves or plugging any holes or broken pipes.
5. **CLEAN UP** Absorb and recover all liquid contaminated and ensure correct disposal.
6. **DECONTAMINATE** Clean up the site (discard any Personal Protection Equipment) which has become contaminated.
7. **REPORT & RE-ORDER** Report the incident to all authorised persons and authorities. Re-order all products which have been used to ensure availability when next required.

## BARRIERS &amp; CONES

## 4D BARRIER SYSTEM

Barrier system that can be used as a square sitting barrier. Lightweight and easily transported. The black rubber base feet are provided separately with a maximum of 4 bases required per system. Three sizes available.

<b>SS4DBS1M</b>	1.0 Metre x 4 Style	Red/White Planks
<b>SS4DBS1.5M</b>	1.5 Metre x 4 Style	Red/White Planks
<b>SS4DBS2M</b>	2.0 Metre x 4 Style	Red/White Planks
<b>SSBSB</b>	Bases to suit the champion folding system	Black base feet

## TITAN BARRIER SYSTEM

SSTBSRW2M

Colours

Durable stackable barrier system with many unique features. Fully reflective striped panel meeting BS873 standards. A wide variety of warning lamps can be attached. Flexible toggles allow courtesy boards to be used. Large area to allow contractor branding details to be applied. Heavy duty rubber feet allow excellent surface grip. Pallet quantity 40, sold separately also.

Size

**2 Metre**

## LIGHTWEIGHT POST &amp; CHAIN KITS

SSLPCK

Colours

Ideal as a crowd channeliser or to cordon off an area. Six poles, six bases, 25m chain.

## ROAD HOG CONES

100% recycled cone complete with reflective sleeve.

<b>SSRHSC18</b>	50cm (20")
<b>SSRHSC30</b>	75cm (30")

## DOMINATOR CONES

The preferred traffic management and team maintenance two-part moulded cones with UV stabilised LDPE moulded top and heavy duty 100% recycled composite base. All cones come complete with Sealbrite™ class R1B sleeve.

<b>SSDSC30</b>	75cm (30")	Red with Black Base. Grey reflective strip
<b>SSDSC1M</b>	1 Metre	Red with Black Base. Grey reflective strip

## BARRIERS & CONES

### CONE MOUNTED SIGNS

SSCMS

Manufactured from tough but flexible polypropylene sheeting and easy to erect on a 750mm or 1m cone. Available types: Men at Work, Road Narrows Left/Right, Keep Left / Right, Pedestrian Notices, Footpath notices ...etc.

Size  
**600 x 600,**  
**750 x 750**

## TRAFFIC RAMPS

### RUBBER RAMPS

Extremely durable rubber ramps made from 100% recycled material. Each section has an integral interlocking facility for ease of installation. Each inner section has incorporated white reflectors for extra visibility. 40mm x 25mm channel on the underside allows hose/cables to be located in.

**4mph RUBBER RAMPS**      4mph - 7.5cm (3") x 50cm (19")      Black/Yellow  
SSSRYB

**4mph END CAPS**      Black or Yellow  
SSSRYBEC

**10mph RUBBER RAMPS**      10mph - 5cm (2") x 50cm (19")      Black/Yellow  
SSSRYB10

**10mph END CAPS**      Black or Yellow  
SSSRYBEC10

### ASPHALT BOLTS

SSSRAF

### CONCRETE BOLTS

SSSRFC

## WARNING TAPE

### ZEBRA CAUTION TAPES

Colours

Dual coloured caution warning tapes used to cordon off areas to prevent people entering. Made of a flexible plastic, they are easily manoeuvred around objects. Also available in self-adhesive.

Size  
**500 metre**  
**length,**  
**70mm width**

**SSYBCT**      Yellow/Black - non adhesive

**SSRWCT**      Red/White - non adhesive

**SSYBAT**      Yellow/Black - adhesive

**SSRWAT**      Red/White - adhesive

## ROAD TRAFFIC SIGNS PERMANENT

TO BE USED IN A SITUATION WHERE THE INFORMATION ON THE SIGN WILL BE RELAYED TO THE ROAD USER FOR A LONG PERIOD OF TIME. USUALLY MOUNTED ON GALVANISED POLES

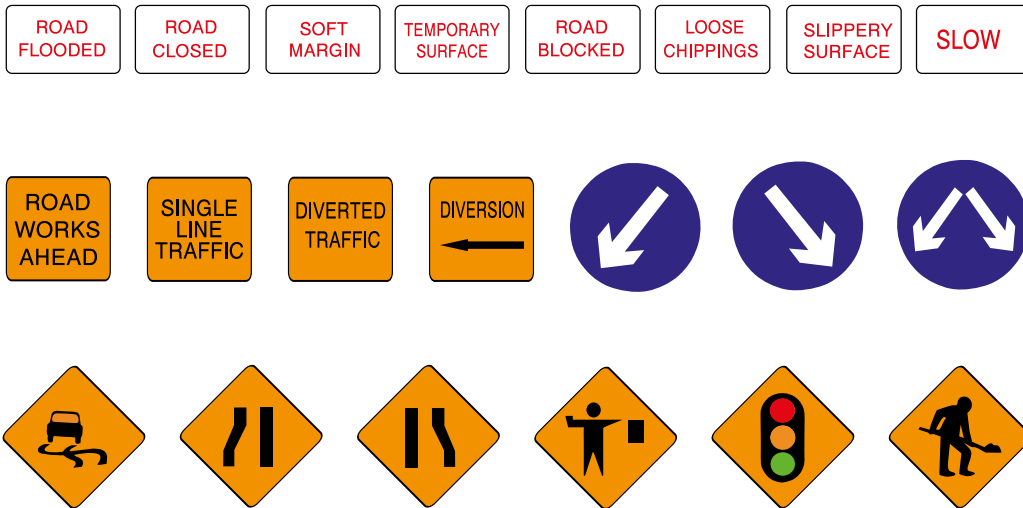

Example

## TEMPORARY ROAD SIGNS

Temporary road signs are manufactured in various formats:  
i.e. corriboard - non-reflective zyntec.

We can apply any text and/or symbol to that material depending on the situation it is required for. Signs are available with straps to mount onto traffic cones.

## STANCHIONS

Metal frames can be used in conjunction with temporary road signs. These frames fold flat for easy storage and are provided with clips to hold the sign in place.

These frames can be supplied in the following sizes:

450mm x 600mm  
600mm x 600mm  
600mm x 900mm  
900mm x 900mm  
1200mm x 1200mm

Custom made signs available on request

## SITE SAFETY SIGNS

TO BE USED ON CONSTRUCTION SITES OR ANYWHERE THAT WORK IS BEING CARRIED OUT AND HAZARDS EXIST.

## ACCESS

### STANDARD LIFEBOUY

SSLB

Designed for both pleasure boat and commercial applications, these ring buoys feature a polyethylene outer shell that will not rot or mould and are unaffected by prolonged outdoor exposure. Fully approved to SOLAS and EC Marine Equipment Directive (Ships Wheel Mark) standards, and fitted with SOLAS retro-reflective tape and grab lines.

Size  
**30" (76cm)**

### LIFE BUOY ROPE LINE

SSLBR

A 30m length of 8mm orange polypropylene floating lifebuoy line suitable for attachment to SOLAS lifebuoys and life rings. Its rugged construction makes it suitable for prolonged storage outside.

Size  
**30 Metres**

### LIFEBOUY HOUSING

SSLBH

A tough, high visibility orange polyethylene life buoy housing designed for storing the 750mm ring buoy around docks, harbours, piers, jetties and offshore installations. The housings can be bolted/screwed direct to a wall or a fence, mounted using one of two optional mounting posts, or clamped to a tubular railing using U-Bolts from a fixings supplier.

## KIT BAGS

### HOLDALL

SSBG150

Colours

Barrel bag with water-resistant fabric. Combined stow pouch/internal pocket. Webbing carry handles. 210D Polyester. Weight 150g.

Size  
**32 Litre Capacity**

### HI-VIS RUCKSACK

HVR

Colours

Hi-Vis Rucksack with reflective tape. Padded back panel. Quick release buckle fastening straps. Internal black lining with mesh pockets. 2 way nylon zips. Multiple pockets to include mobile phone pocket.

Size  
**25 Litre Capacity**

## TRAFFIC ACCESSORIES

### WARNING TRIANGLE

SSHDWT

Heavy Duty free standing warning triangle. Comes in its own protective plastic casing. Triangle folds into its neat packaging which allows for easy transportation & storage.

### WHEEL CHOCK BLOCK

SSWRB

Heavy duty rubber wheel chock block which is placed under the wheels of stationary vehicles to prevent the vehicles rolling. Block comes with a metal ring built in to it to facilitate hanging and storage.

## SITE ACCESSORIES

### LINE MARKING PAINT

SSMOS

Colours

(These colours are also available in Hi-Vis Luminous paint).

Permanent line marking paint. Xylene free.

### AIR HORN C/W PUMP

SSAHP

Fog/Air Horn includes 345gm non-flammable gas canister.

## TAG EQUIPMENT

### SCAFFTAG

**SSRHSC18** Scaffold tagging status system. Uses unique holder and insert system to ensure that the latest status is instantly visible at point of use. Sold per box with 10 tag holders, 20 inserts and 1 pen.

**SSRHSC30** Inserts available separately (Box 50)

### LADDERTAG

**SSLT** Laddertag is robust and highly visible. Displays information relating to a ladders class, inspection period and inspections due as well as a handy, quick reference ladder inspection checklist. Sold per box with 10 tags, 10 holders and 1 pen.

**SSLTI** Inserts available separately (Box 50)

### MICROTAG

**SSHT** A popular system for tagging fall arrest equipment due to its ease of use and familiarity among equipment workers. Attached by cable ties in 2 places, one on the full body harness on the chest region and one on the lanyard. Sold per box with 20 holders, 40 cable ties and 1 pen.

**SSHTI** Inserts available separately (Pack 10)

## LOCKOUTS & ACCESSORIES

**Lockout Tagout** - Isolate and identify equipment in need of repair or maintenance to prevent unexpected energisation. Encouraging users to create a simple and easy to follow procedure which helps provide security and clarity for all members of the team.

Available to order. Please phone customer service for more information.

## TORCHES & BATTERIES

### TR-24 WOLF RIGHT ANGLED SAFETY TORCH

SSWNRAST

Designed for use in potentially explosive and emergency situations, the TR-24 torch is supplied with a spare bulb and comes with a wrist lanyard. The Right Angled Model comes with a clip to allow 'hands-free' operation. Spare 2.4V 0.7A Bulbs also available.

EN 60079 - 0:2012+A11:2013, IEC 60079-7:2015, EN 60079-11:2012, EN 60079-31:2014 . IP67 to EN60529:1992

### EX150 LUMIN ATEX LED STRAIGHT SAFETY TORCH

SSEX150SALALSST

SA Lumin EX LED torch complete with light sensor, wrist strap and four AAA batteries. ATEX CERTIFIED FOR Zones O,1 and 2 (gas), 20, 21 and 22 (dust). Penetrating light beam. Waterproof and dustproof. Up to 30 hours battery life.

### 8 LED HEAD LIGHT

HDHML

Professional quality head light ideal for illuminating dark areas when working on site. Includes 8 LEDs to ensure a bright and high quality light beam. Features ABS body and nylon strap to maximise product durability and user comfort. Also features 3 switch modes: 2LED on, 4LED on and 8LED on. Includes batteries.

### VEHICLE FLASHING BEACON

Multi-vehicle flashing beacons. Supplied with a magnetic base that attaches to the top of the metal surface of the vehicle. A 12 foot coil extension cord that feeds into the vehicles cigarette lighter plug. Low noise motor with no interference to Radios. Two types of voltage beacons available:

**SSFB12V**

12 Volt

**SSFB24V**

24 Volt

### DURACELL LANTERN TORCH

SSDELT

19 LED Lantern torch. Takes 1 x 6V block battery.

## TORCHES & BATTERIES

### BATTERIES

<b>SSAAADB</b>	AAA Batteries (Pack 4)
<b>SSAAB</b>	AA Batteries (Pack 4)
<b>SSCBAT</b>	C Batteries (Pack 2)
<b>SSDB</b>	D Batteries (Pack 2)

## SPILL KITS & ACCESSORIES

### OIL DRI ABSORBENT FIBRE

SSOD

ABX10 is a fire retardant, highly absorbent wood fibre which absorbs oil, grease and other liquid spillages.

### OIL SPILL KIT 15L

SSOSK15L

This kit is suitable for small spills of oil and is especially useful carried on forklift trucks where it can be used in response to an emergency spill. Comprising of instruction sheet, 12 oil absorbent pads, 1 sock, clip top vinyl disposal bag and ties.

Size  
**15 Litre  
soakage**

BS7959 Part 1 & 2

### OIL SPILL KIT 30L

SSOSK30L

Compact easy to use emergency spill kit. Suitable for tankers, diggers and construction vehicles. Packed in a waterproof see-through bag which is easily stored in a vehicle. It contains: 3 socks to contain oil, 18 oil absorbent pads to soak up oil, 2 disposal bags and ties, 1 clip top vinyl disposal bag and 1 laminated instruction sheet. Component Spill Kit parts available on request.

Size  
**30 Litre  
soakage**

BS7959 Part 1 & 2

## SPILL KITS & ACCESSORIES

### OIL SPILL KIT 90L

SSOSK90L

Colours

● Bin

Designed to be used as a quick response unit for fuel spillages in factories, industrial premises, garages, agricultural areas or other areas where such a spillage may occur. It comes in a moulded bin container, with a wall bracket cord to secure kit and descriptive labels. Can be used indoors or outdoors. Oil spill contains: 6 oil absorbent socks, 4 oil absorbent pillows for volume soakage, 50 oil absorbent pads for residue soakage, 5 disposable bags and ties, 1 laminated instruction sheet. Component spill kit parts available on request.

Size  
**90 Litre  
soakage**

BS7959 Part 1 & 2

### OIL SPILL KIT 240L

SSOSK240L

Colours

● Bin

Designed to be used as a quick response unit for fuel spillages in factories, industrial premises, garages, agricultural areas or other areas where such a spillage may occur. It comes in a moulded bin container, with a wall bracket cord to secure kit and descriptive labels. Can be used indoors or outdoors. Oil spill contains: 12 oil absorbent socks, 8 oil absorbent pillows for volume soakage, 160 oil absorbent pads for residue soakage, 14 disposable bags and ties, 1 laminated instruction sheet. Component spill kit parts available on request.

Size  
**90 Litre  
soakage**

BS7959 Part 1 & 2

### CHEMICAL SPILL KIT 15L

SSCSK15L

Designed to deal with small scale chemical spills up to 15 litres. This kit is often found in laboratories. Chemical sorbents are suitable for all but the most aggressive chemicals. Comprising of 14 pads, 1 sock, 2 disposal bags & ties, 1 clip-top disposal bag and instruction sheet.

Size  
**15 Litre  
soakage**

BS7959 Part 1

### CHEMICAL SPILL KIT 30L

SSCSK30L

Compact easy to use emergency spill kit which may be used on most non-aggressive chemicals and can assist in the control of hazardous chemicals. Packed in a waterproof see-through bag which is easily stored in a vehicle or workplace. It contains; 3 socks to contain spill, 20 pads to soak up spill, 4 disposable bags and ties, 1 laminated instruction sheet. Component Spill Kit parts available on request.

Size  
**30 Litre  
soakage**

BS7959 Part 1

## SPILL KITS & ACCESSORIES

### CHEMICAL SPILL KIT 90L

SSCSK90L

Designed to be used as a quick response unit for fuel spillages in factories, industrial premises, laboratories, agricultural areas or other areas where such a spillage may occur. It comes in a yellow moulded bin container, with a wall bracket cord to secure kit and descriptive labels. Can be used indoors or outdoors. Chem Spill contains: 6 chemical absorbent socks, 4 chemical absorbent pillows, 60 chemical absorbent pads, 5 disposable bags and ties, 1 laminated instruction sheet. Component spill kit parts available on request.

Size  
**90 Litre  
soakage**

## KNIVES

### KN20 PRO SAFETY CUTTER SSPSC

Colours

Spring-loaded blade retract system that responds to any uncontrolled hand movement. Suitable for both right and left-handed users. Rubberised grip for strong hold. Manufactured from zinc alloy.

### KN40 RETRACTABLE SAFETY CUTTER SSRSC

Colours

The latest super safety cutter featuring a blade that retracts when it loses contact with material being cut. Primarily for use in warehousing, distribution or construction environments where safety is a priority. Pack contains 10 replacement blades (KN91).

### BLUE FISH KNIFE SSFKB

Colours

Food safe knife moulded in metal detectable plastic, suitable for cutting plastic bags, shrink/stretch wrap, tape.

### SH701 SNAPPY HOOKER SAFETY KNIFE SSSH701SK

Colours

Cuts stretch wrap effortlessly. Durable, impact resistant handle with two blade storage. Quick, easy blade change. High carbon steel blade. Includes 3 injector blades.

**SK100 FOOD SAFE METAL DETECTABLE KNIFE**  
SSSK100

Colours

Fully Metal Detectable plastic sheet cutter - (can also be used on leather and plastic box strapping). The SK100 has a special tool to open the blade cover which prevents unauthorised access to the blade. This plastic sheet cutter offers 2 advantages - a highly simplified blade change routine plus the integrated metal splitter (removable) to cut cardboard box adhesive tapes.

**Important: Strapping should always be cut with a diagonal stroke.**

**SK102 FOOD SAFE METAL DETECTABLE KNIFE**  
SSSK102

Colours

Fully metal detectable knife designed for use by right handers or left handers. The spring loaded blade retract system is designed to respond to any uncontrolled move if and when the thumb - push slider is NOT in forward position- let go of the slider when making the cut! Easy blade change and no extra tools required - just slide the blade mount insert back. In contrast to normal fixed blade cutters, the blades of this knife are spring loaded to instantly retract into the handle when blade edge contact is lost. This automatic response is an efficient safeguard against serious cutting accidents.

**SK10 FOOD SAFE METAL DETECTABLE KNIFE**  
SSSK104MDSK

Colours

Fully metal detectable knife designed to cut packaging and wraps. This is a disposable knife and must be replaced when showing any signs of wear and tear. The non-replaceable blade is in a sealed handle for extra safety (no risk of loss from internal parts). This knife can be safely pocketed and is suitable for use by left and right handers.

## METAL DETECTABLE PENS

**HD CRYO METAL DETECTABLE PENS**  
SSHDCMDPB

Blue or Black  
pressurised ink

Ideal for use in wet and greasy conditions. Can write upside down - ordinary ballpoints usually lose the will to write even when held horizontally. Can be used in very low temperatures. Can be re-filled. Conforms to the standard Regulation EC 1935/2004 on materials and articles intended to come into contact with food and repealing Directives 80/590/EEC and 89/109/EEC.

**Blue or Black pressurised ink**
