

NITRIGRIP[®] by REDBACK

Nitrile Ambidextrous Gloves

**POWDER-FREE NITRILE
FISHSCALE GRIP**

■ AMBIDEXTROUS

Nitrigrp household gloves are ambidextrous, allowing the wearer to don gloves on either hand with grip pattern on both sides. Quick, easy and cost effective.

■ FISHSCALE 4 SIDED GRIP

Specialised fishscale grip on the palm and front gives this glove very effective grip in wet and dry conditions and especially effective grip with fatty food products. These gloves also have a grid pattern on the inside of each glove which grips the hand for added secure fit.

■ EXTRA THICK & LONG

Outstanding durability with an extra thick nitrile material of 0.2mm thickness and beaded cuff. Long lasting in tough environments. Extra long cuff making length 300mm for added ease, protection and comfort.

■ FOOD SAFE

Nitrigrp household gloves are food safe and perfect for any food industry especially meat processing. These gloves are tested according to EN1186 and are also EN 374-1 and EN374-2 compliant.

■ POWDER-FREE

Nitrigrp household gloves are made with Nitrile food safe material. They are powder-free and latex-free reducing the possibility of allergic reactions.

■ ENVIRONMENTAL PACKING

Nitrigrp gloves have an environmentally friendly packing system. They are bagged instead of boxed, cutting down on bulky cardboard disposal. Bagged per 50 pieces (25 pairs).
