Product Use
 Spectacles for occupational use.

Application: For indoor use where eye protection is required against most commonly encountered hazards (i.e. impact protection) and where fogging is problematic. Absorbs >99.9% of UV radiation up to 385 nm.

Features & Benefits

Feature
 Simplicity "Put it on and GO!"

Benefit
 Millennia 2G is new to Honeywell's "Put it On and Go" category, designed for those hassle-free workers who don't want to worry about adjustments or moving parts with their spectacles. No need to worry about lengthening temples, nose piece adjustments or ratcheting temples. Simply take the product out of the package, put it on and focus on the job at hand!

Feature
 Comfort

Benefit
 Softer, more flexible frame material for superior comfort against the head and ears when worn for all-day wear.

Feature

Superior eye and cheek coverage

Benefit

Covers the eyes and areas above the cheeks and brow to ensure that the workers are protected from particulates, dust and other impact risks. A greater lens coverage wrap both peripherally and along the cheeks helps prevent particulate risk. A “shelf-like” design element along the brow has been added to help to prevent dust from dropping in between the frame and entering the eyes.

Feature

Large viewing area

Benefit

Offers panoramic viewing area to see more both frontally and peripherally while working. Less “frame interruption”, which is a typical complaint from end-users when trying to look towards the left, right, above and below to see clearly in all directions.

Feature

Nasal comfort and stability

Benefit

The comfortable nose pads help prevent the eyewear from slipping off the nose and forcing the worker to have to readjust their eyewear throughout the course of the work day.

Feature

Sporty, more modern frame

Benefit

Classic and simple in design with a sporty touch to boost worker compliance
