

3M 6055 Cartridge Filter

3M™ 6055 Cartridge Filter Organic Vapour, is one of the 3M 6000 Series of filters that are applicable for use in a range of gas/vapour environments. With the appropriate particulate filter added, protection against particulates can also be obtained.

Bayonet Fitting

- + Ensures precise & safer locking
- + Low breathing resistance

3M High Performance Filter Media

- + Good balance of weight on face
- + Excellent field of vision as a result of unique trapezoidal shape

Versatile

- + Can be used on all 3M 6000 & 3M 7500 Series Half Masks & Full Face Masks.

Efficiency and Protection Factor

If there is a need for particulate protection, fitting of 3M particle filter - P2 (3M 5925) and the 501 retainer over the 6055 will give a combination organic vapour & particulate protection. This will be capable of providing protection against dusts, mists & fumes as well as organic vapours.

Specifications

The 3M 6055 Filter has been tested & meets the specifications to EN 14387 Class A2 gas/ vapour filter when used with compatible 3M respirators.

Half Mask Respirators-up to 10 x Workplace Exposure limit (WEL) or 5000ppm whichever is lower for organic vapours

Full Mask Respirators-up to 20 x Workplace Exposure limit (WEL) or 5000ppm whichever is lower for organic vapours

Can be combined with P2 (5925) or P3 (5935) for particulate protection

Typical Applications

The 6055 filter can be used in Vehicle Manufacture, Aircraft Manufacture & Refurbishment, Boat Building, Ink & Dye Manufacture & Use, Paint & Varnish Manufacture & Resin Manufacture & Use.

For additional information and limitations of use please refer to 3M6055 data sheets. Specifications may change without prior notification

Suitable for use with

	All 3M 6000 Full Face Masks
	All 3M 6000 Half Masks
	All 3M 7500 Half Masks
