WATERPROOF BOOT (WR) SUITABLE FOR USE IN WET AND DRY CONDITIONS. SUITABLE FOR UTILITIES PERSONNEL & CONSTRUCTION AND MAINTENANCE SECTORS

- Metal free with Composite toe-cap
- Front part of the shoe bends flexibly with the foot
- Composite material does not conduct heat or cold, so the composite toecap provides extra comfort in both hot and cold surroundings
- Insole with optimal arch support that can counteract the tendency to flat foot
- Stabilization with MASCOT's patented multi-function shank, makes THIS footwear suitable even when working on uneven surfaces or on ladders
- Shock-absorbing, soft and flexible two-component sole of PU/PU
- Sole is oil and petrol resistant
- Removable insoles with optimal arch support that can counteract the tendency to flat foot
- Shock-absorbing insoles are removable, durable and ergonomic
